Professional Summary

Senior Analytics & Microsoft Fabric Data Engineer with 6+ years of experience designing and delivering scalable data platforms, advanced analytics solutions, and enterprise-grade data architectures. Specialized in Microsoft Fabric, Lakehouse, and modern data engineering practices, with hands-on expertise in building end-to-end data solutions—from API ingestion using PySpark/Python to semantic modeling and business intelligence. Proven track record working with international clients (US & Canada), Strong expertise in data modeling, performance optimization, and cloud-based data ecosystems (Azure & Fabric).

Relevant Experience

Analytics Engineer Contractor | Delbridge | Canada | January 2025 – Present

- Designed and implemented **ETL pipelines** and **end-to-end data solutions** in Fabric, ensuring seamless **data integration, processing, and reporting**.
- Led the **migration of an on-premises data warehouse** to Fabric, optimizing architecture and performance.
- Developed **semantic models** and **business reports** to enhance data accessibility and insights.
- Conducted **data audits** and automated validation processes, improving efficiency and accuracy.
- Migrated **Prophix reports** to Microsoft Fabric for **Lionsgate** and **EOne Entertainment**, building pipelines, lakehouse, warehouse, and semantic models.
- Automated **CSV-to-Parquet conversion** from **ADLS Gen2 to Fabric** using **PySpark**.
- Implemented **full and incremental fact table refresh** in Fabric for **Rasa Floor**, optimizing warehouse performance.
- Created **business views and Power BI report migrations** for **Holt Renfrew’s data warehouse.Engineering**

Microsoft Fabric Engineer | Tru Data | US | August 2025 – Present

- Design and implement end-to-end data platforms in Microsoft Fabric, including Lakehouse, Warehouse, and semantic models.
- Develop scalable data ingestion frameworks using PySpark and Python, integrating APIs from enterprise systems such as CrowdStrike, Zscaler, Absolute, Raven, CH Robinson, and Workday.
- Architect and optimize medallion data architectures (Bronze, Silver, Gold) to support analytics and reporting workloads.
- Build and maintain data pipelines for batch and near real-time processing, ensuring high performance and reliability.
- Lead data modeling initiatives, creating optimized star schemas and business-ready datasets for Power BI and downstream analytics.
- Implement data quality frameworks, validation processes, and monitoring pipelines, improving data accuracy and governance.
- Migrate legacy/on-prem data warehouse solutions into Microsoft Fabric, enhancing scalability and reducing operational complexity.
- Collaborate with cross-functional teams and stakeholders across US-based organizations to deliver data-driven solutions aligned with business goals.

Educative Consultant – Big Data and AI Carrer Path Director| UNIVERSAE | CR, Santa Ana, Pozos | May 2024 – December 2024

- Collaborated with academic departments to design and develop comprehensive engineering curricula, ensuring alignment with industry standards and educational best practices.
- Developed engaging innovative course materials, including lecture notes, presentations, lab exercises, and assessments.
- Provided training and support to faculty members on the implementation of new curricula and teaching strategies

Business Intelligence Analyst and Data Engineer Contractor | Microsoft | US, Redmon, Seattle | September 2023 – July 2025

- Delivered enterprise-level BI and data engineering solutions using Power BI, Azure Synapse, and Microsoft Fabric.
- Automated critical reporting processes (LTV), reducing execution time from 10 days to less than 1 day.
- Designed and implemented data pipelines using PySpark, reducing processing time from 10 hours to 20 minutes.
- Built scalable semantic models and reporting layers, improving accessibility and decision-making capabilities.
- Conducted data audits and optimization initiatives, enhancing performance and data reliability across systems.

Business Intelligence Analyst Consultant and Trainer | Grow up Data Analytics | Costa Rica, San José | March 2021 – Present

- Served as an instructor in the BI unit. I specialize in subjects such as Power BI, SQL, Data warehousing and business consulting.
- Provided expert consultancy and training in areas including SSAS and SSIS, Power bi and excel.
- Leveraged extensive industry experience to deliver comprehensive training programs, empowering professionals with the skills needed to excel in data analysis, reporting, and business intelligence solutions.

Business Intelligence Analyst and Data Engineer | Unicomer | CR, Alajuela, Coyol | October 2021 – September 2023

- Administrator and developer of the BI platform (Datawarehouse, Power BI Report server, SQL Database), solutions created using ETL processes in tools such as SSIS, SSAS and Power BI. Enabling security, self-service, agility and data governance in the organization with the different DataMart’s.
- Developed the E-Commerce tabular cube in 3 months, creating an innovative solution previously unavailable for decision-making and ad-hoc reporting in digital retail sales. This development resulted in cost savings of \$25.000 in outsourcing services.

Business Intelligence Analyst | Fidelitas University | Costa Rica, San José | June 2021 – October 2021

- Administrator and developer of automation and reporting solutions in Power BI (portable, cloud and desktop) in order to visualize the information and transmit it in the right way to management and directors for data drive decisions making. Due to the relevance of the information presented, led to an increase of 18% points in revenues against 2020.

Education

- Post – degree in Big Data and AI | International University of La Rioja Spain | 2026
- Master in visualization and treatment of Big Data | International University of La Rioja Spain | 2026
- Master in Business Analytics | Latina University | 2023
- Specialization in Big Data | Fidelitas University | 2023
- Specialty in Business Intelligence | GrowUp Data Analytics | 2021
- Specialty in Process Automation | GrowUp Data Analytics | 2022
- Systems Engineering | Fidelitas University | 2020
- Business Administration Technitian | Costa Rica University | 2011

Relevant Certifications

- Microsoft Certified: Fabric Data Engineer Associate | Microsoft | 2026
- Microsoft Certified: Security, Compliance, and Identity Fundamentals | Microsoft | 2025
- Microsoft Applied Skills: Implement a data warehouse in Microsoft Fabric | Microsoft | 2025
- Microsoft Certified: Microsoft Office Specialist Excel Expert | Microsoft | 2024
- Microsoft Certified: Microsoft Certified Trainer - MCT | Microsoft | 2024
- Microsoft Certified: Fabric Analytics Engineer Associate | Microsoft | 2024
- Microsoft Certified: Power BI Data Analyst Associate PL-300 | Microsoft | 2022
- Microsoft Certified: Azure Fundamentals AZ900 | Microsoft | 2023
- Microsoft Certified: Azure Data Fundamentals | Microsoft | 2023
- Lean Six Sigma Green Belt Professional Certificate | Certiprof | 2022
- Data Storytelling Professional Certification – DSTPC | Certiprof | 2023
- Big Data Professional Certificate | Certiprof | 2023
- Business Intelligence Analyst Professional Certification – BIAPC | Certiprof | 2023
- Design Thinking Professional Certificate – DTPC | Certiprof | 2023
- Google Data Analytics Certificate | Google | 2022
- Databricks Lakehouse Fundamentals | Databricks | 2023
- Fundamentals of Predictive Project Management | PMI | 2023

Skills Profile

- Data Engineering: Microsoft Fabric, Lakehouse, Data Warehouse, Medallion Architecture
- Programming: Python, PySpark, SQL
- Cloud & Data Platforms: Azure, Synapse Analytics, ADLS Gen2
- BI & Analytics: Power BI, Semantic Models, DAX
- Data Integration: REST APIs, ETL/ELT Pipelines
- Tools: Git, Jira, SSIS, SSAS
